

ASSEMBLY INSTRUCTIONS

Darlana Large Linear Lantern

Item # CHC 2166

NOTICE:

This light fixture should be installed in accordance with all applicable, local installation codes, and by a person familiar with the construction and operation of it, as well as the hazards involved. Inspect item and contents carefully. If any damage or defect is found, do not install. Retain all packaging material until installation is complete and approved.

TOOLS REQUIRED (NOT INCLUDED):

Phillips Screwdriver	Slotted Screwdriver	Chain Pliers
Slip Joint Pliers	Wire Strippers	Measuring Tape
Wire Cutters	Drill	Hammer
Pencil		

- Carefully remove all parts from the box. Place on a clean, soft surface.
- Using the mounting plate (C) as a guide, line up with the junction box and mark anchor positions.
- Using a drill bit slightly smaller than the anchor, drill holes in the marked positions. Install anchors (B) into the holes using hammer.
- Install mounting plate (C) to the junction box and secure with mounting screws (E), then secure wood screws (D) to anchors (B).
- Remove collar loops (F) from chains (I) by unscrewing quick links (J).
- Threaded collar loops (F) to mounting plate (C).
- Install canopy (G) to mounting plate (C) and secure with collar rings (H).
- Determine desired overall length, and amount of chains (I) needed. Shorten chain using chain pliers. (Keep extra chain)
- Attach chains (I) to collar loops (F) and fixture loops (K) using quick links (J). Secure quick links (J).
- Thread fixture wire, ground wire and safety cable through chains (I).

NOTE: When you reach the collar loop (F), ensure there is no tension on the wires. Cut excess wires, being sure to leave about 12" to reach the junction box.
